Natural Elements

The bungalow structure is made with exposed wire-cut bricks & lime mortar, without the use of cement, using a solar passive design to keep it naturally cool.

All MATTRESS & PILLOWS are made with PURE COTTON FIBRE & upholstered with COTTON LINEN, ensuring there's no chemical element in your natural environment...

Natural Decor

With our ethos of making, doing & growing our own, every part of the bungalow has integrated natural decor elements - from farm-grown teakwood floor lamps, to mirrors, wreaths, candle holders, handpainted wooden keyrings & more.... each with a unique story to tell!
